Short Films by Year

Motion pictures of 40 minutes or less

Before you peruse this list, I suggest reading my introduction to short films at the beginning of my [Star Rating](#) list.

That introduction explains my star choices and criteria. For a guide to colors and symbols, see [Key](#).

For directors, consult the [Star Rating](#) or [A-Z](#) list.

This list is a work in progress and currently contains films from 1888 to 2012.

From 1888 to 2010, all attempts have been made to rank every film in order of quality. However, because of the large number of films from 2011 to the present (and the difficulty of comparing different genres, subjects, styles and lengths), films from those later years are not necessarily ranked in order of quality but might instead be presented in random order within their star group.
